Skills

Programming Languages: JavaScript, HTML, CSS, C, C++
Technologies & Tools: ReactJS, Node.js, Express.js, MongoDB, MATLAB, Verilog
Technical Knowledge: Data Structures and Algorithms (DSA)
Soft Skills: Teamwork, Communication, Problem-solving, Time Management
Languages: English, Hindi, Gujarati

Summary

I am a web development enthusiast and a student at MNIT Jaipur with a strong interest in creating modern and responsive websites. I have experience working with JavaScript, Node.js, Express.js, MongoDB, and React. I enjoy building full-stack web applications and solving problems using code. I am always eager to learn new technologies and improve my skills to become a better developer

Project Work

PostHive – Full-Stack Web Application

- A full-stack web application that allows users to create, share, and explore posts with images, titles, and content. Users can control the visibility of each post (public or private), enhancing personal content management. Built with React (frontend), Node.js & Express.js (backend), and MongoDB (database) to deliver a responsive UI, secure routing, and efficient data handling. Designed to offer a seamless user experience with real-time content updates.

TechGadget – Modern E-Commerce Frontend

- A responsive frontend e-commerce website focused on showcasing premium electronic gadgets with an intuitive and engaging user interface. Developed using React.js, Tailwind CSS, and Framer Motion, the platform features dynamic product pages, smart filtering, real-time UI updates, and a smooth shopping cart experience. Designed with a mobile-first approach, the site offers clear navigation, fast performance, and a polished user experience for both consumers and business users. Focused on user-friendly design, performance, and visual appeal.
